Wow, what a busy summer it's been. And because of that, what a great season it's going to be.

I'm happy to share the news that Polar Latitudes and Albatros Expeditions have joined forces, and will begin operating under the flag of Polar Latitudes Expeditions, starting with Polar Latitudes' 2025-26 Antarctica voyages and then all combined voyages beginning with the summer 2026 Arctic season. This new partnership means we can promise more ship experiences, more cabin options, more choices of amenities and, most importantly, more itineraries and immersive experiences to our guest explorers, in both Antarctica and the Arctic.

Our combined fleet now numbers four vessels, ranging from the classic expedition-style Ocean Nova, which carries a maximum of just 80 guests, to our sleek and state-of-the-art sister ships, Ocean Albatros and Ocean Victory, and our beloved Seaventure, which boasts the highest ice rating among passenger vessels. Together, these ships have among the lowest per-passenger carbon footprint in polar waters, a critical factor in forming our alliance. And our passenger-to-expedition team ratio is among the lowest, ensuring a personal, attentive, and supremely safe experience for all.

What's not changing? Lots. Our highly trained and deeply experienced team. Our focus is on getting you off the ship and into these transformative environments as often and for as long as possible. Our commitment to the environments and communities that we so depend on. And the spirit of camaraderie and shared fun that pervades everything we do on board and off.

Every season and every polar voyage is a reason to be excited. But this season promises to be something truly special. I hope you'll join us on this great adventure.

A handwritten signature in blue ink, appearing to read 'John'.

John McKeon
Executive Chairman, Polar Latitudes Expeditions

We are all explorers

There's something about the magnificent, mysterious, and rarely tread upon polar regions that serves to awaken the inner explorer in everyone privileged enough to experience them. The massive sculptural icebergs and glaciers, the seemingly endless uninhabited landscape, the truly wild and always-captivating wildlife, and the near-complete silence that overtakes you, should you pause to allow it in. It's easy to understand why so many legendary explorers were drawn to these shores, these mountains, this magic.

Our job, as we see it, is to ignite that explorer's spirit in everyone who travels with us, from your first footsteps on board one of our expedition ships, to your final disembarkation as a newly anointed polar ambassador, ready to head back home, both exhausted and invigorated, possibly already imagining where you might explore next. In between, you can expect the most immersive experience of any polar operator – in a spirit of discovery, camaraderie, and shared fun. Our twice-daily outings, averaging 6 hours off ship, are among the longest offered by anyone. And both our highly knowledgeable team and our high ice-rated vessels make it their everyday job to seek out experiences that will distinguish your experience from all others.

Your inner explorer is calling. Take a much-deserved break from the so-called civilized world, and join us on the ultimate trip of a lifetime.

THROW OFF THE BOWLINES,
SAIL AWAY FROM SAFE HARBOR.
CATCH THE TRADE WINDS IN YOUR SAILS.
EXPLORE. DREAM. DISCOVER.

— Mark Twain

All penguins are equal – all Travel companies are not

That sounds ridiculous because it is. And therein lies the difficulty in deciding which polar travel company to trust with your bucket list holiday. Browsing through brochures or websites, the similarities are hard to miss: the sculptural icebergs, the majestic glaciers, the wild and beautiful penguins, whales and polar bears... And the truth is, those highlights will be there, regardless of who you travel with. But that doesn't mean all experiences will be the same. Here are five things that will distinguish your experience with Polar Latitudes Expeditions, should you choose to travel with us.

1: You'll travel with a principled company

While our ships take us to some unforgettable places, it's our brand beliefs that guide every decision we make. A focus on personalized attention, camaraderie, experiences above all else, and a commitment to the environment and the communities that keep us afloat – these are at the heart of our brand, and brand experience.

2: You'll be guided by an extraordinary team

Our commitment to your experience begins with our commitment to providing the most qualified and highly-trained team in polar waters. They average a dozen years' experience, and one team member for every seven-to-eight guests, ensuring the highest level of attention and safety. And though it can't be put into numbers, they simply love what they do, and sharing that love with our guests.

3: Your onboard experience will feel customized, and highly personal

We offer a range of ship experiences, from ultra-modern to classic expedition-style, providing a wide choice of cabins, features and amenities to choose from. Our ships range in size from 80 guests to 178, keeping a small ship experience (and our polar destinations) front and center at all times. Whichever ship you travel on, the level of service and attention will be second to none.

4: You'll have a more immersive adventure

Our adventure options and excursions can take you further, closer, and in some cases higher, wherever your itinerary takes you, enabling you to create a bespoke experience you'll never forget. From kayaking to camping, from hiking on foot to soaring overhead, everything we offer will bring you more intimately engaged with these incredible polar environments.

5: You'll be traveling responsibly

Like any good guest, we believe in leaving the places we visit better for us having been there. That responsibility begins with one of the industry's lowest carbon footprints, and extends to giving back to the local communities we so depend on. A pioneering Citizen Science program, local education and scholarships programs, and cultural exchange with remote Inuit communities are just some of the programs fundamental to our polar commitment.

A full-page background image featuring a dramatic landscape. In the foreground, a dark, choppy sea stretches across the bottom. Behind it, a range of rugged mountains is partially covered in snow. The sky is filled with heavy, textured clouds, and a warm, golden light, likely from a low sun, illuminates the scene, creating a strong contrast between the dark water and the bright sky and snow.

THE GLADDEST MOMENT IN HUMAN LIFE,
IS A DEPARTURE INTO UNKNOWN LANDS.

— *Sir Richard Burton*

A HISTORY OF EXPLORATION AND INNOVATION

Polar Latitudes Expeditions is the joining together of two industry-leading expedition companies: **Polar Latitudes** and **Albatros Expeditions**. Between us, we bring more than four decades of award-winning expedition experience to bear on your next unforgettable adventure into Antarctica or the Arctic.

Our two brands – now one – were both born of a common love for the furthest reaches of our planet, and an explorer's need to discover what awaits us there.

It's said that Søren Rasmussen, a Danish biologist with an insatiable appetite for exploration, founded Albatros Travel (which then branched into Expeditions) as a means to personally see the untamed corners of Africa and Greenland. And Polar Latitudes' founders, John McKeon and Tachen Ting, started Polar Latitudes with a decades-long love of Antarctica and a simple question: "If we were going to start the kind of company that we would want to work for and travel with, what would that company be?"

Now these two expedition companies are united, as Polar Latitudes Expeditions, bringing the very best of both to your next great polar experience, and ensuring that this "once-in-a-lifetime adventure" lives up to and even exceeds the promise of those words.

In Every Way, an Elevated Polar Experience

By combining the best learning, experience, and resources of two industry-leading operators, Polar Latitudes Expeditions offers our citizen-explorers more options, more itineraries, and more ways to ensure that this once-in-a-lifetime journey is everything you could have imagined, and then some.

Some of what you can expect from us:

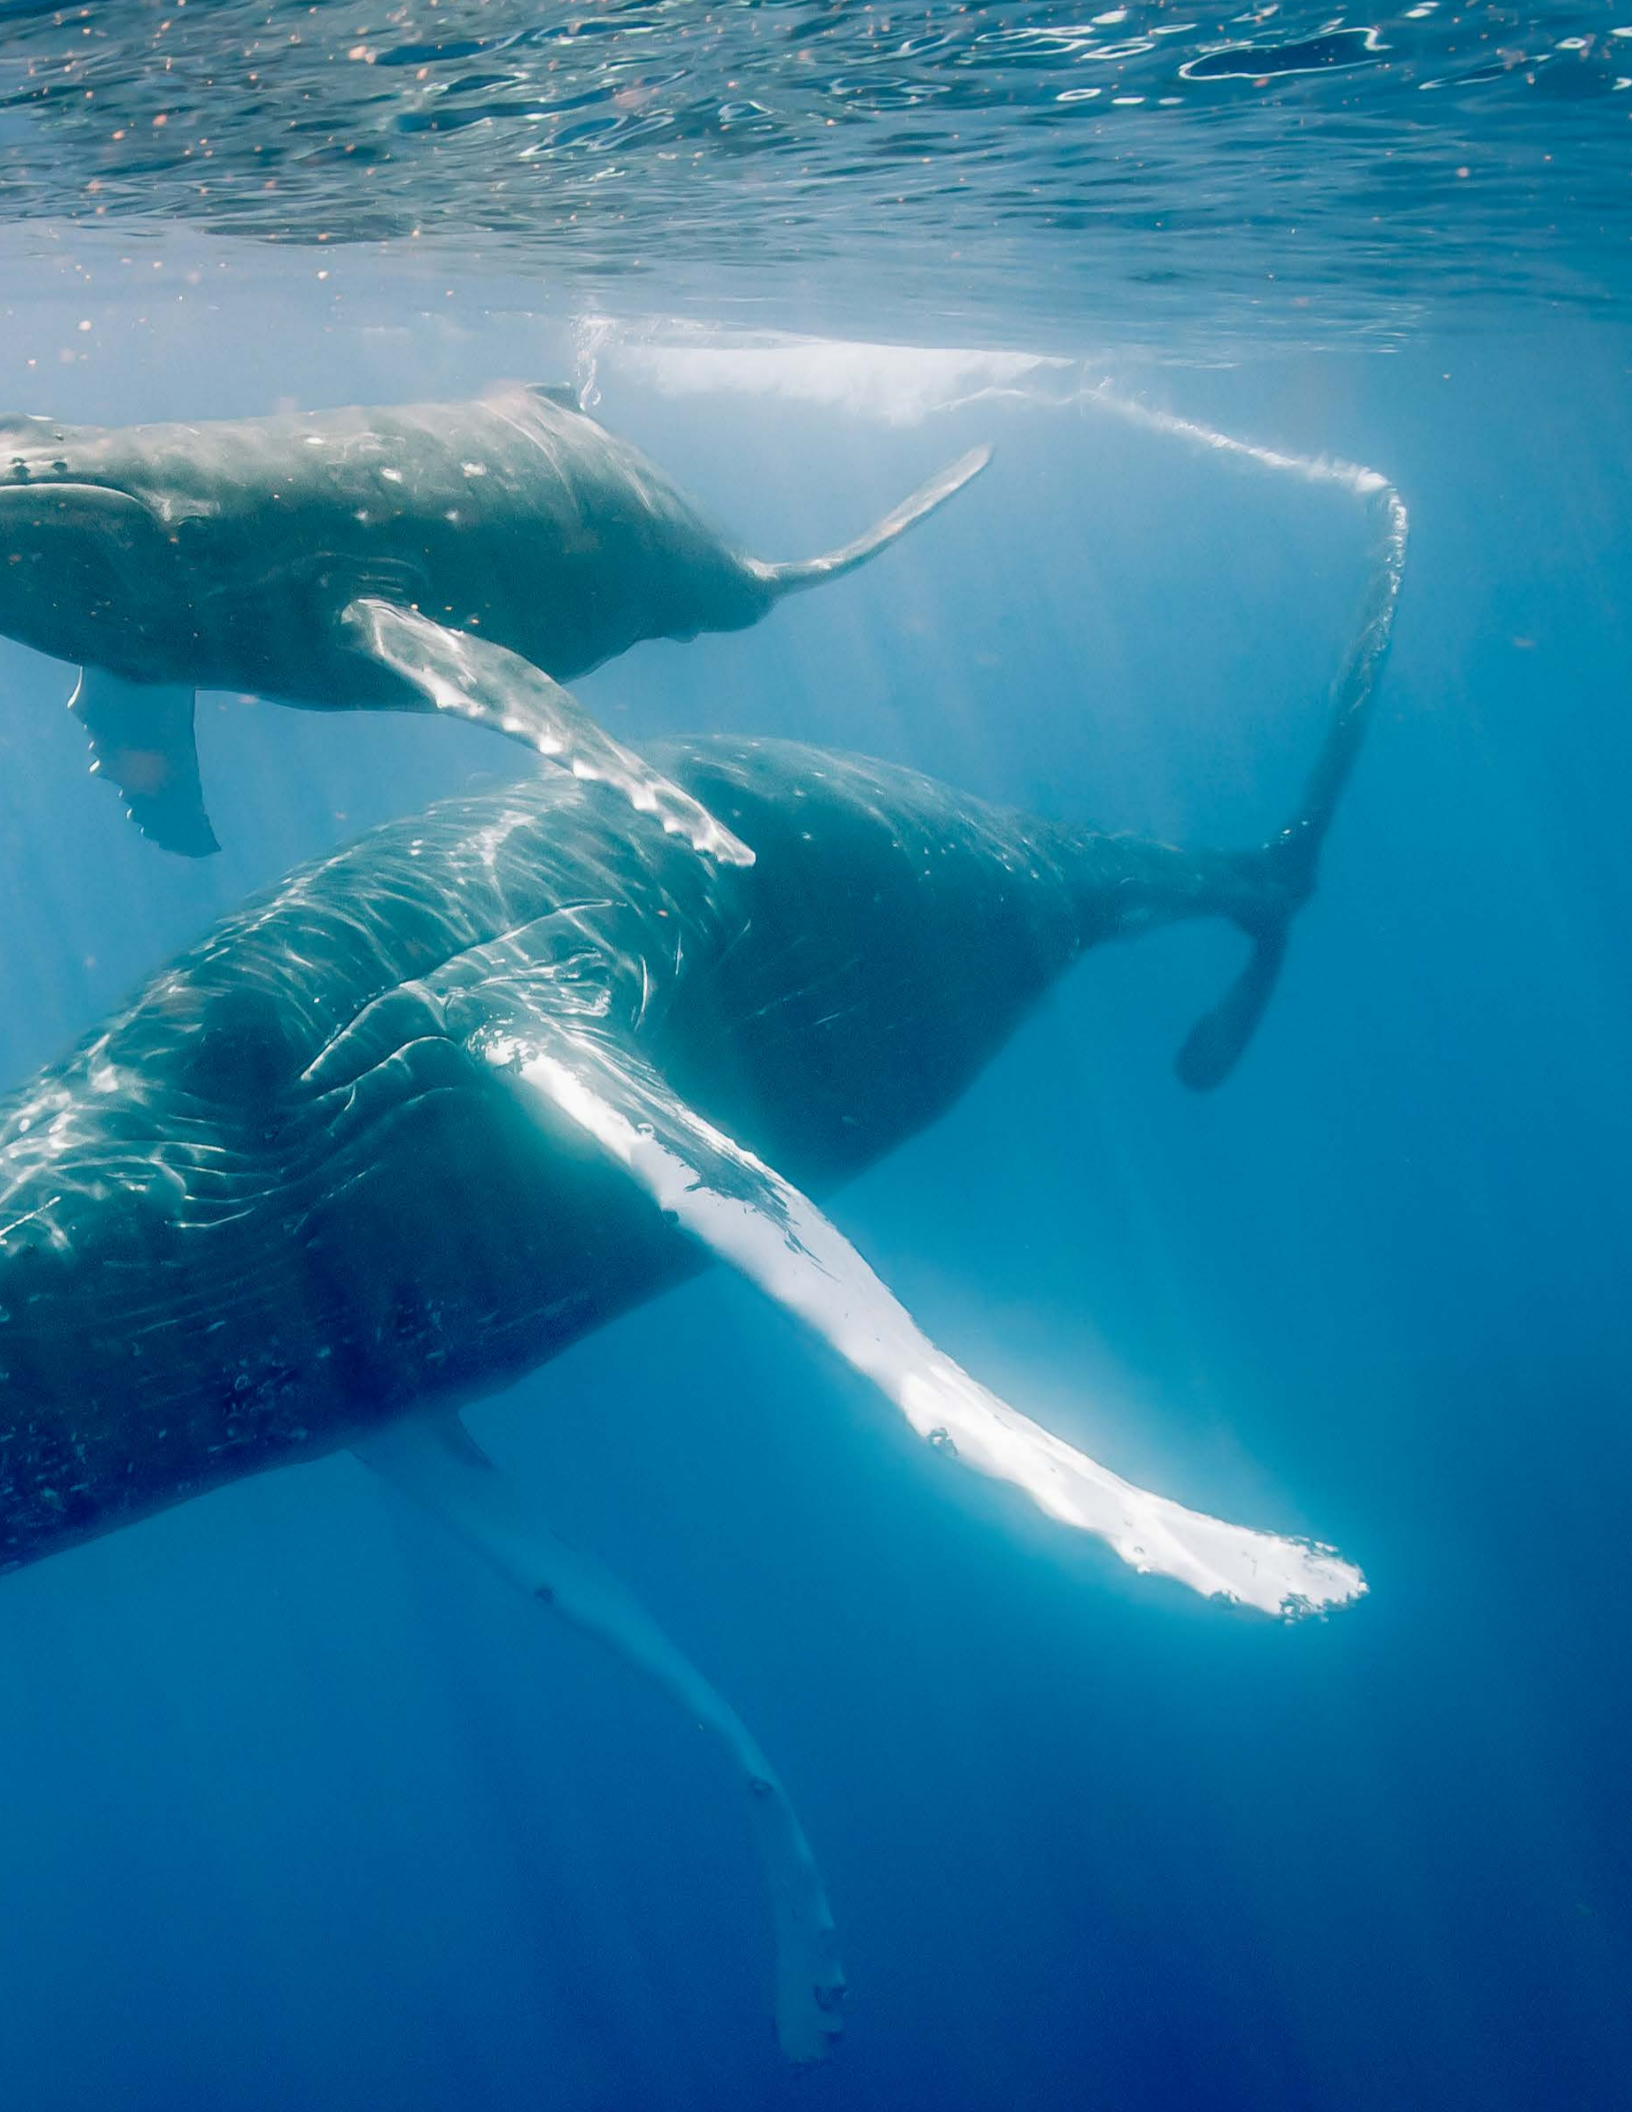

- ✓ More Choice: A wider range of ships, cabins, amenities, and experiences
- ✓ More Attention: Industry-leading passenger-to-staff ratio of 7:1 – 8:1 on every voyage
- ✓ More Purpose: With our pioneering Citizen Science program
- ✓ More Engagement: Twice daily outings, averaging six hours off ship
- ✓ More Fine Dining: Elevated chef-curated dining experience and more options
- ✓ More Community: Giving back through community engagement programs and initiatives
- ✓ Less Carbon: One of the lowest overall carbon footprint-per-passenger ratios
- ✓ More Responsive: The best overall agent experience on companies are united, as Polar Latitudes Expeditions, bringing the very best of both to your next great polar experience, and ensuring that this "once-in-a-lifetime adventure" lives up to and even exceeds the promise of those words.

A pioneering technology to both discover and protect our planet's most awe-inspiring citizens

A sudden whale sighting is bound to be a highlight of any polar voyage. But on occasion, direct whale encounters with ocean vessels can put these marvelous creatures at risk. In 2024, Polar Latitudes began teaming up with Woods Hole Oceanographic Institution to incorporate a state-of-the-art whale detection system on all our voyages. This technology helps us identify whales in our immediate area, increasing your opportunity to experience them up close, while increasing our ability to keep the Seaventure at a safe distance.

Citizen Science on every voyage

Having a Citizen Science program on every voyage is an effort we pioneered, as the very first polar operator to officially collaborate with The Polar Citizen Science Collective. We continue to team up with them on several projects, giving our passengers the chance to play a meaningful role in recording and better understanding the Arctic and Antarctic ecosystems and the impact of climate change. This is particularly helpful in the Antarctic, where we support long-term academic observation teams that would find it nearly impossible to be as ever-present on their own.

WE SUPPORT AND
COLLABORATE WITH:

**THE POLAR
COLLECTIVE**
protect the poles together.

The projects offered may vary slightly by voyage and scientific need. Everyone is welcome to participate. If interested, please see the onboard daily bulletin and join the scheduled Citizen Science Introduction Meeting at the start of your voyage. There is no additional cost.

Ongoing projects

COLLECTING DATA FOR THE SOUTH GEORGIA BIG SEAWEED SEARCH

The aim of this project, led by scientists from London's Natural History Museum, is to study the seaweed diversity and distribution in South Georgia, assessing threats from climate change and invasive species.

CLOUD OBSERVATIONS FOR NASA GLOBE OBSERVER

By observing and recording cloud cover & type timed to NASA satellite fly-overs, we help scientists understand how surface and air temperature are affected by cloud cover, and how clouds respond to a changing climate.

PHYTOPLANKTON DATA FOR SCRIPPS INSTITUTION OF OCEANOGRAPHY

By collecting phytoplankton samples in fjord systems along the Antarctic Peninsula, we help scientists obtain a seasonal picture of phytoplankton abundance, composition, and distribution, as well as how

phytoplankton are influenced by (increasing) melt-water inflow from glaciers.

SEABIRD SURVEYS FOR THE CORNELL LAB OF ORNITHOLOGY AND EBIRD

The project is building a long-term ecological monitoring program of seabirds in the Southern Ocean and along the Antarctic Peninsula. These recordings help researchers understand how birds use oceanic habitat, to discover new details about the lives of these remote species, and ultimately how their behavior and populations might be changing as a result of climate change.

SECCHI DISK STUDY FOR THE SECCHI DISK FOUNDATION

Measuring Secchi depth, a measure of the depth at which you lose water clarity, is another important indicator of the relative abundance of phytoplankton, critical to Antarctica's food chain. Using a Secchi Disk, our Citizen Scientists record and report findings to The Secchi Disk Foundation in the UK.

Take your photography to the next level

A professional coach for every camera and skill level

Shooting photographs in Antarctica and the Arctic is a unique privilege ... and also a unique challenge. The weather and lighting conditions can change dramatically in a matter of minutes, and an incredible opportunity can present itself at any moment. When you do capture that unexpected wildlife encounter, or the spectacular polar landscape just as the sun is setting it ablaze, you've preserved a moment on earth that few people will ever get to see — unless they're lucky enough to follow you on Instagram.

Our professional photography coaches are here to help you make the most of every photo opportunity, whether you're a fully equipped landscape photographer or someone armed only with a cellphone camera and an unlimited love of nature and beautiful imagery. From basic instruction, to the best way to shoot from a moving Zodiac, to the complexities of handling the very tricky relationship between snow, ice, and ever-shifting light, our coaches have mastered every kind of situation this environment and its inhabitants can place in your lens' path. They'll show you how to make the most of every opportunity.

Presentations and briefings will help you better understand your camera, learn a few tricks of the trade, and better master the day's unpredictable weather and environment. Your coach is with you in the field — sometimes accompanying you in a Zodiac, with you on

a shore landing, or sitting at the table next to you at dinner, ready and willing to answer any question, or pass along an inside tip earned through years of experience in polar waters. Don't hesitate to ask!

At the end of each trip, passengers are invited to submit photos to our photo contest on board. Finalists are selected by our photography coach, and winners chosen by the cheers, "oohs" and "aahs" of fellow passengers at a festive event in our lounge.

The photography coach is also our trip's documentary photographer, capturing the expedition's many highlights, which are shared at an event at the end of your voyage, and given to each passenger as a valued keepsake.

More about our photography coaches.

Our coaches are experienced professionals with a wide range of specialties and skills. While their backgrounds vary, their passion for the outdoors and Antarctica in particular is a common thread they share. They are deeply knowledgeable of cameras and film equipment of every kind, and take great joy in sharing their knowledge with photographers of every level of experience.

Kayaking Programs

Getting Up Close and Personal With Your Polar Experience

To experience the polar regions in a truly intimate way, there's really no better seat than the one in your kayak, just inches above the water, navigating among icebergs and glacial ice dating back 30,000 years. Gliding through an otherworldly landscape with a small team, led by our expert guides and occasionally joined by playful wildlife, this is about as magical as it gets.

We offer 2 distinct kayaking programs on all voyages. Details below.

"WONDERFUL KAYAKING EXPERIENCE"

The kayak guides provided a wonderful, safe and informative kayaking experience. Their soothing confidence helped me really relax and enjoy the ride.

— Anna F.

"KAYAKING WAS MAGICAL"

The kayaking experience was magical. Being eye level with the whales and ice was truly breathtaking.

— Lisa F.

Immersive Kayaking

LIMIT 10 PARTICIPANTS

This program is designed for those more experienced guests who want to kayak as much as possible during their voyage. Immersive Kayaking is limited to 10 participants, with a dedicated kayak guide and safety Zodiac. Immersive paddlers will have the opportunity to kayak during most excursions and landings, weather and conditions permitting.

Discover Kayaking

PARTICIPANT LIMIT VARIES BY VOYAGE*

This program is designed for those guests who just want a taste of the Polar kayaking experience. Each participant kayaks once per voyage in a group of 14 with a dedicated guide team and safety Zodiac. Total number of available kayaking spots on each departure will vary by itinerary length and weather, but we aim to get groups on the water at every opportunity.

Advanced booking is highly recommended and requires a 20% deposit

* Because the number of kayaking opportunities will vary by voyage and ship, we are setting the pre-booking availability for Discover Kayaking very conservatively. Another reason to book early! Additional spots may become available on board, offered on a first-come, first-served basis.

THE DETAILS:

Anyone 14 or older, in reasonably good health and with even a small amount of paddling experience is welcome to join.

Prior to your first kayaking adventure, our guides will do a thorough job of handing out and explaining all your gear, as well as the basic rules of operating an ocean kayak.

Typical excursions last anywhere from 1-3 hours.

WE PROVIDE:

High Density Polyethylene (HDPE) tandem (two-man) kayaks with paddles, dry suits, personal floatation devices (PFDs), and pogies (neoprene gloves.)

YOU PROVIDE:

Guests pre-booked on both of our kayak programs should read and follow the detailed preparation notes sent prior to departure. Make sure to bring warm layers and a keen sense of adventure!

You can find a complete FAQ at polar-latitudes.com/kayaking-programs

Camping (exclusive to Antarctica)

After a full day and delicious dinner onboard, jump back in the Zodiacs and head ashore for a night of camping in Antarctica! Enjoy the sounds of the waves and brash ice on the beach, the creaking of the glaciers, maybe even the blow of a passing whale. Warm and cozy in your bivy sack under the midnight sun, you will be breathing the cleanest air in the most beautiful place on the planet.

Who can participate?

Guests aged 12 and older with an adventurous spirit and a willingness to rough-it for a night. Sleeping on the ice in Antarctica is the ultimate camping experience!

How often will we camp?

Camping is limited to one night per voyage and is available on Peninsula and Circle Crossing voyages.

Is there a participant limit?

Participant limit varies by ship. Sign up early — the camping option frequently sells out.

What do passengers need to supply?

A sense of adventure is all you need.

"POLAR LATITUDES WAS ABSOLUTELY THE BEST TOUR COMPANY WE COULD HAVE PICKED FOR OUR ANTARCTICA JOURNEY!"

Camping and the polar plunge were 2 of the biggest highlights of the trip for me! Not every company offers camping and this was one of the reasons I picked Polar Latitudes.

— Jackie S.

Photo Credit: Pier Nirandara

For detailed rate and date information on all activities please see page 62.

Note: Space on Adventure Options is limited, and typically sells out prior to departure.

We double-dog dare you

One of the definite highlights of every voyage is the Polar Plunge, a chance for all our adventurous, thrill seeking, and just plain crazy passengers to strike a pose while hurtling into the frigid Antarctic waters... if only for a few seconds. You might call it "the ultimate immersive polar experience." Trust us, it's more fun than it looks.

A professional-grade expedition jacket, and a down-filled mid-layer for you to keep

Our time-tested expedition jackets, yours to use throughout the trip, are custom-designed with Antarctica in mind. They're lightweight, waterproof, and wind-resistant. They hug the body, are both warm and breathable, and feature a high collar and generous overall length that will keep the chill and sea mist from ever sneaking up on you. We added plenty of sturdy loops to secure gloves, a water bottle, or a GoPro, ensuring that nothing goes overboard. Waterproof inside pockets will keep your personal items dry and safe at all times.

With you on every future journey: An exclusively designed down jacket, named for our founder.

In addition to our loaner expedition jacket, you'll receive our black MCKEON down jacket, named for our founder John McKeon, and created exclusively for us by Shackleton London. This versatile, lightweight jacket combines high functionality and everyday stylishness and is yours to keep, providing exceptional service for years – if not decades – to come, wherever your exploration may take you.

Gearing up for the last wild places on earth

An obvious (and totally warranted) question when traveling to a place as wild, unpopulated, and remote as Antarctica is, "What do I need to pack?" It's true that the Arctic and Antarctica are cold, and the weather can be unpredictable, but the ships are very comfy, and a few key articles of clothing will do the trick to fight off the elements when out and exploring – not unlike what you might pack for a ski vacation, with a few additional suggestions. We supply the expedition jacket and muck boots you'll need on every outing, plus our custom-designed MCKEON down-filled jacket (named for our founder and yours to keep!), which makes a great mid-layer; but other important items to pack are:

- Waterproof ski-type pants (essential)
- Base layers, for both your legs and upper body (also essential)
- In addition to our MCKEON down jacket, a good wool sweater or additional body-hugging mid-layer is always good to have on hand
- Heavy long socks, thick waterproof gloves and a good warm hat (no surprise there)
- Polarized sunglasses (a must)
- Sunscreen (yes, it's cold, but the sun can be surprisingly strong)
- Balaclava or other face-covering (a good idea, for when the wind picks up)
- A bathing suit – for the polar plunge (Oh, yes you will!)
- Casual comfortable gear for on board. You can leave the tux at home, we're pretty informal on the ship
- Workout gear, if you intend to hit the onboard gym
- A dry bag, or other waterproof bag to protect your phone and camera gear when in a zodiac or on shore
- Photographers – download our detailed photography guide (see page 12) for more advice and pro tips

No need to stress. Should you book with us, we'll give you a much more detailed packing list, along with all the other details you'll need to know before you step on a plane, and eventually on our ship.

DON'T TAKE LIFE TOO SERIOUSLY.
YOU WILL NEVER GET OUT OF IT ALIVE.

— Elbert Hubbard

Our fleet: Explorer-friendly and Polar-sensitive

The Polar Latitudes Expedition fleet now includes the Seaventure, Ocean Albatros, Ocean Victory, and Ocean Nova. While the ships differ in many ways (giving you more options, from rooms to amenities), they all share a number of features – first and foremost, prioritizing your Polar engagement above all else. All four ships offer a decidedly small ship experience, with never more than 180 passengers on board. This means quick, safe Zodiac boarding, personalized attention from our expedition and photography teams, and feeling like you're part of a team, not just another face in the passenger crowd. Our ships are purpose-built for the polar regions, with exceptionally high ice ratings that enable safe access to places that would simply say "no" to lesser ships. They are designed to keep the spectacular outside environment in clear view at all times, with multiple outdoor decks and 180 views in our presentation rooms. And collectively, our fleet is one of the most fuel-efficient in the industry, just one of the many ways we "walk the talk" of caring for these fragile environments.

All voyages include:

- ✓ Beer, wine, and Non-Alcoholic Beverages with meals
- ✓ Certified Emergency MD and Clinic
- ✓ World Class Cuisine and Live Entertainment
- ✓ Complimentary 24-hr Coffee/Tea station
- ✓ Voyage Photographer/Coach
- ✓ Dedicated Passenger Service Manager
- ✓ Pro-grade Expedition Jacket for voyage, mid-layer puffer to keep

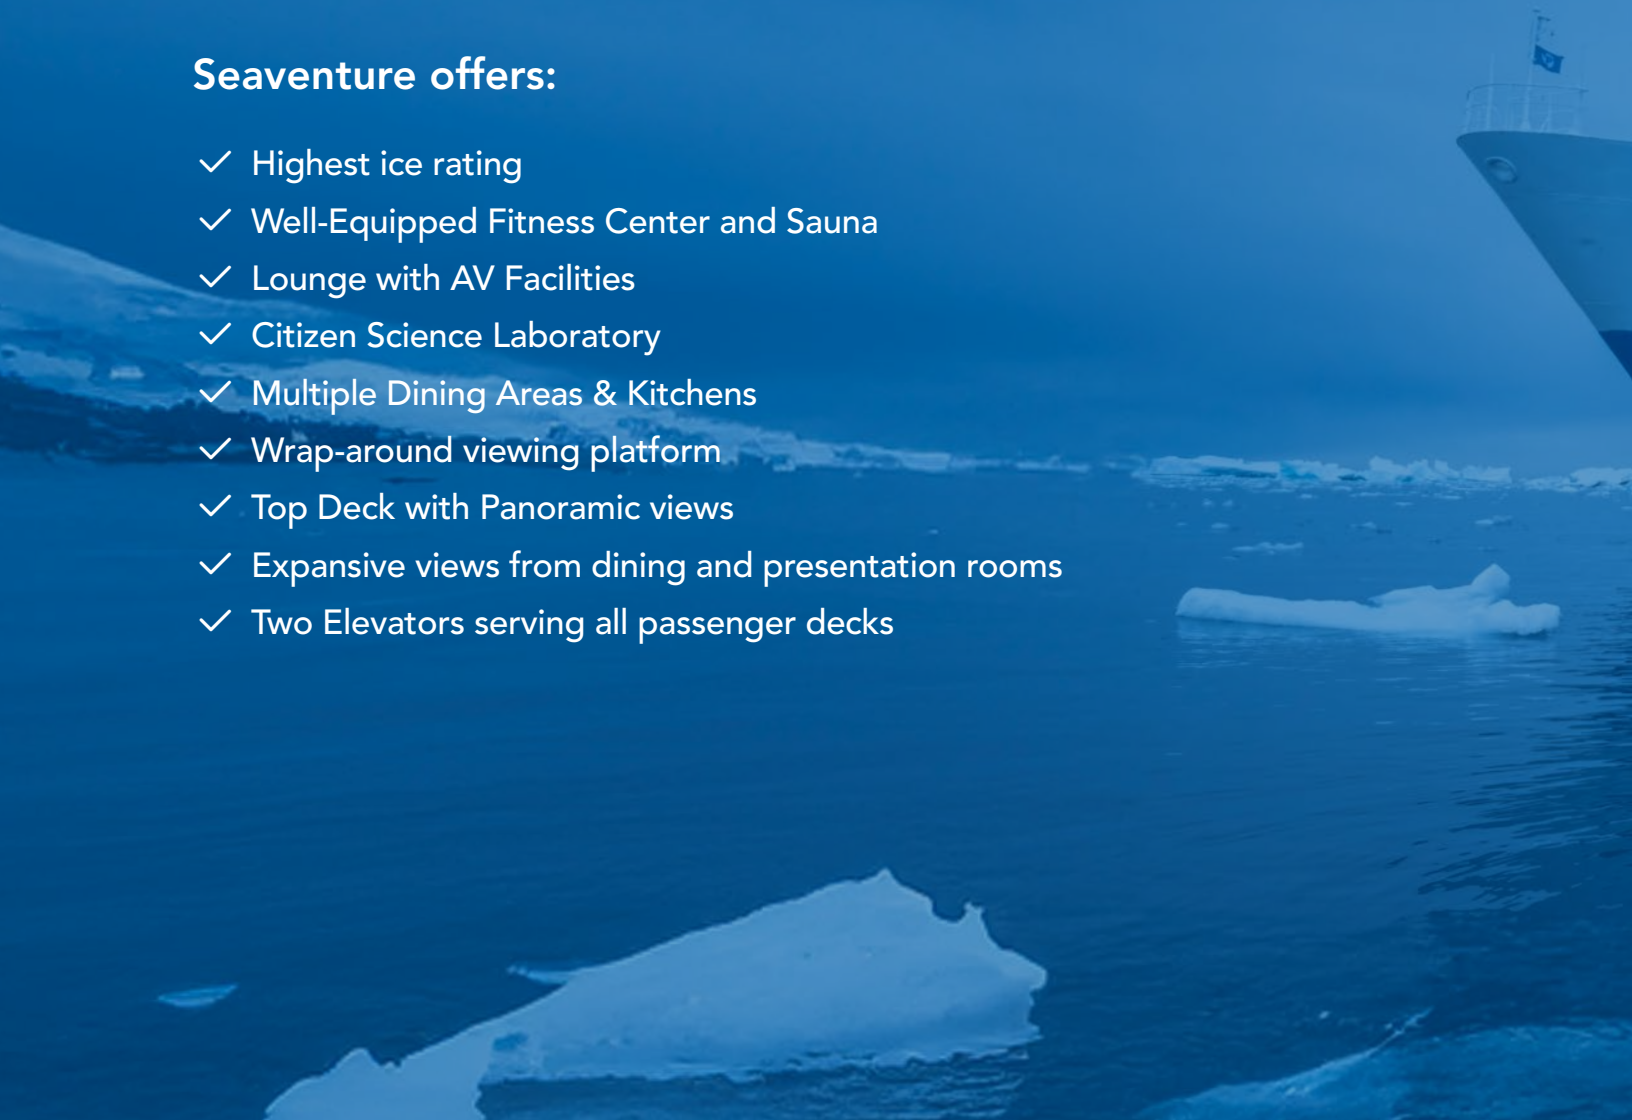

Seaventure: a small but mighty ship

The MS Seaventure was custom-built for both the challenges and opportunities that only Antarctica can offer. Its size is formidable enough to deliver a supreme level of comfort and safety even in challenging seas, yet it's small enough to provide a superior level of personalized service, casual luxury, and flawless access to all things polar. Its state-of-the-art stabilizing system provides safe, comfortable passage through even rough seas, and its ice rating is second-to-none in these waters, offering you access to places that would turn away many other ships.

Seaventure features an outer viewing deck that circles the entire ship, and an outdoor dining area and heliport where we host events whenever weather permits. Indoors, our elegant dining areas and spacious presentation room surround you with oversized windows, so you'll never have to miss a passing iceberg or an impromptu sighting of a Humpback or school of Orcas.

Seaventure offers:

- ✓ Highest ice rating
- ✓ Well-Equipped Fitness Center and Sauna
- ✓ Lounge with AV Facilities
- ✓ Citizen Science Laboratory
- ✓ Multiple Dining Areas & Kitchens
- ✓ Wrap-around viewing platform
- ✓ Top Deck with Panoramic views
- ✓ Expansive views from dining and presentation rooms
- ✓ Two Elevators serving all passenger decks

Seaventure accommodations

All Staterooms Feature

- Exterior Views
- Sitting Area with Chairs or Sofa and Table

Ocean Albatros: a next-generation ship, decades in the making

Beneath the sleek exterior of the Ocean Albatros lies decades of learning and adaptation to the harsh Antarctic environment. Its patented X-Bow, Polar Class 6, and A1 ice rating add up to a superior level of stability and comfort, and enable the Ocean Albatros to push through deeper ice, delivering access to ever more remote and elusive areas. Its generous onboard amenities are designed to maximize your Antarctic experience no matter where you are on the ship. And its spacious heated mudroom with four exterior doors makes Zodiac boarding quick, safe, and effortless.

From morning wake-up to evening lights out, the Ocean Albatros is designed to keep Antarctica front and center. Every stateroom provides a generous view, and most include private balconies. A variety of observation decks are accessible from multiple indoor spaces. Even the two outdoor Jacuzzis provide 360 views of the mesmerizing landscape that surrounds you. The Ocean Albatros is powered by two diesel and two electro engines, controlled electronically to optimize speed and fuel efficiency. Compared to traditional expedition ships, this technology allows the ship to reduce its carbon footprint by 50%. And by implementing the [Green Initiative Program](#), we ensure the highest standards for both maximum comfort and sustainability practices for our ship and for all our guests.

Ocean Albatros offers:

- ✓ Next-generation expedition ship with A1 ice rating
- ✓ Patented X-Bow design delivers a smoother ride
- ✓ Two Jacuzzis offer panoramic views
- ✓ Spa, gym, and sauna
- ✓ Multiple observation decks and access points
- ✓ Most rooms with private balconies
- ✓ 50% lower carbon footprint than the average expedition vessel
- ✓ Library equipped with computers
- ✓ Citizen Science Laboratory

Ocean Victory: a thoroughly modern ship, built for the Polar regions

The sister ship of Ocean Albatros, Ocean Victory boasts the same strikingly unconventional profile, with the same trip-of-a-lifetime results. From its uber-stable X-Bow to its heated mudroom and four exterior doors that will get you out and exploring quickly and safely, this is the ship Antarctica – and every would-be explorer – has been waiting for. Its superior 1A ice rating and Polar Class 6 mean it can push through deeper ice and deliver access to ever more remote and elusive areas.

Onboard, spacious rooms, everywhere visibility, and seamless access to zodiacs (and the adventures to follow) all join forces to ensure a one-of-a-kind experience that will exceed your highest expectations. Every stateroom provides a generous view, and most include private balconies. A variety of observation decks are accessible from multiple indoor locations, and two outdoor Jacuzzis offer 360 views of the surrounding landscape. Ocean Victory is powered by two diesel and two electro engines, controlled electronically to optimize speed and fuel efficiency. When compared to traditional expedition ships, this technology allows Ocean Victory to reduce its carbon footprint by 50%. And by implementing our [Green Initiative Program](#), we ensure the highest standards for both maximum comfort and sustainability practices for our ship and for all our guests.

Ocean Victory offers:

- ✓ Polar Class 6 and A1 ice rating
- ✓ Two Jacuzzis with panoramic views
- ✓ Well-appointed wellness center, spa, gym.
- ✓ Multiple observation decks
- ✓ One fine dining restaurant and one bistro
- ✓ Most rooms with private balconies
- ✓ Spacious bar, lounge and communal areas
- ✓ Library equipped with computers
- ✓ Citizen Science Laboratory
- ✓ 50% lower carbon footprint than the average expedition vessel

Ocean Nova: a classic small ship expedition experience

With a maximum of just 80 passengers, Ocean Nova offers the best advantages of a small ship expedition – a small enough size to maneuver into the most intimate and pristine landscapes, and a superior guide-to-passenger ratio, ensuring a highly personalized experience for everyone both onboard and off. One of the smaller, more nimble ships in Antarctic waters, Ocean Nova is ideally suited to escort you into Antarctica's more elusive bays and coves, where you'll bear witness to some of Antarctica's greatest secrets. Our industry-best expedition guide-to-passenger ratio means we're never more than a tap on the shoulder away to assist you, answer questions, or just share a life-changing moment. And our size ensures that everyone on board can participate in every landing together and all at once, ensuring a high level of camaraderie and shared adventure.

On board, our unique Panoramic Lounge, at the heart of Ocean Nova, and its accompanying outside deck offer unparalleled wildlife viewing, though our focus is always on getting you off the ship and into this magnificent wonderland. From the start, Ocean Nova was designed with the fragile Antarctic environment in mind – not just exploring it, but protecting it in every way possible. It boasts one of the lowest carbon footprints in all of Polar Travel, part of a broader commitment to minimizing our impact in every aspect of our business and travel experience.

Ocean Nova offers:

- ✓ A classic small ship experience
- ✓ Access to smaller bays and coves, off limit to larger ships
- ✓ Superior guide-to-passenger ratio
- ✓ Maximum 80 passengers ensures high attention level
- ✓ Among the lowest fuel consumption ratios in Antarctica
- ✓ 200-degree views from our Panorama Lounge
- ✓ Library and fitness center
- ✓ Seamlessly integrated Citizen Science Program
- ✓ Daily presentations from experts in wildlife, geology, and history

Hotel Partners In Ushuaia

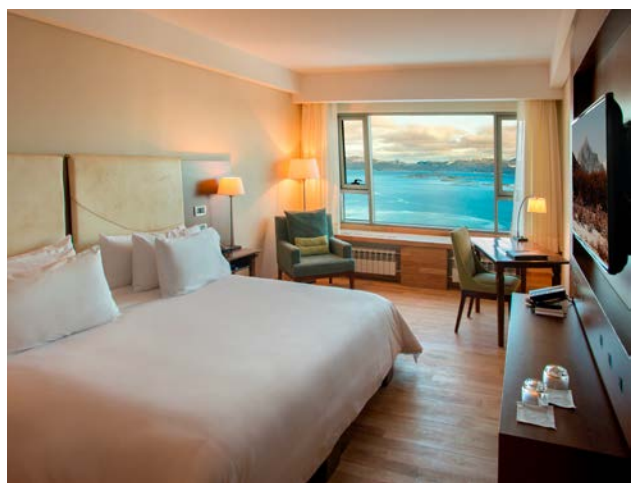

ARAKUR
USHUAIA

A member of the Leading Hotels of the World

All of Polar Latitudes Expeditions' Antarctic departures begin with an overnight stay at the Arakur Ushuaia Resort & Spa, among the finest hotels in the world.

(In the unlikely event that you can't be accommodated at the Arakur, you'll unwind at another of Ushuaia's top luxury hotels.) Settle in, attend the optional evening briefing, meet your fellow explorers, or stretch your legs on one of the surrounding hiking trails. It's the perfect place to begin leaving the world behind, as you prepare for the journey of a lifetime.

A network of hiking trails begins at the hotel and winds its way through beautiful forest, prairie and mountain settings, while state of the art spa & exercise facilities offer guests a plethora of pleasant activities.

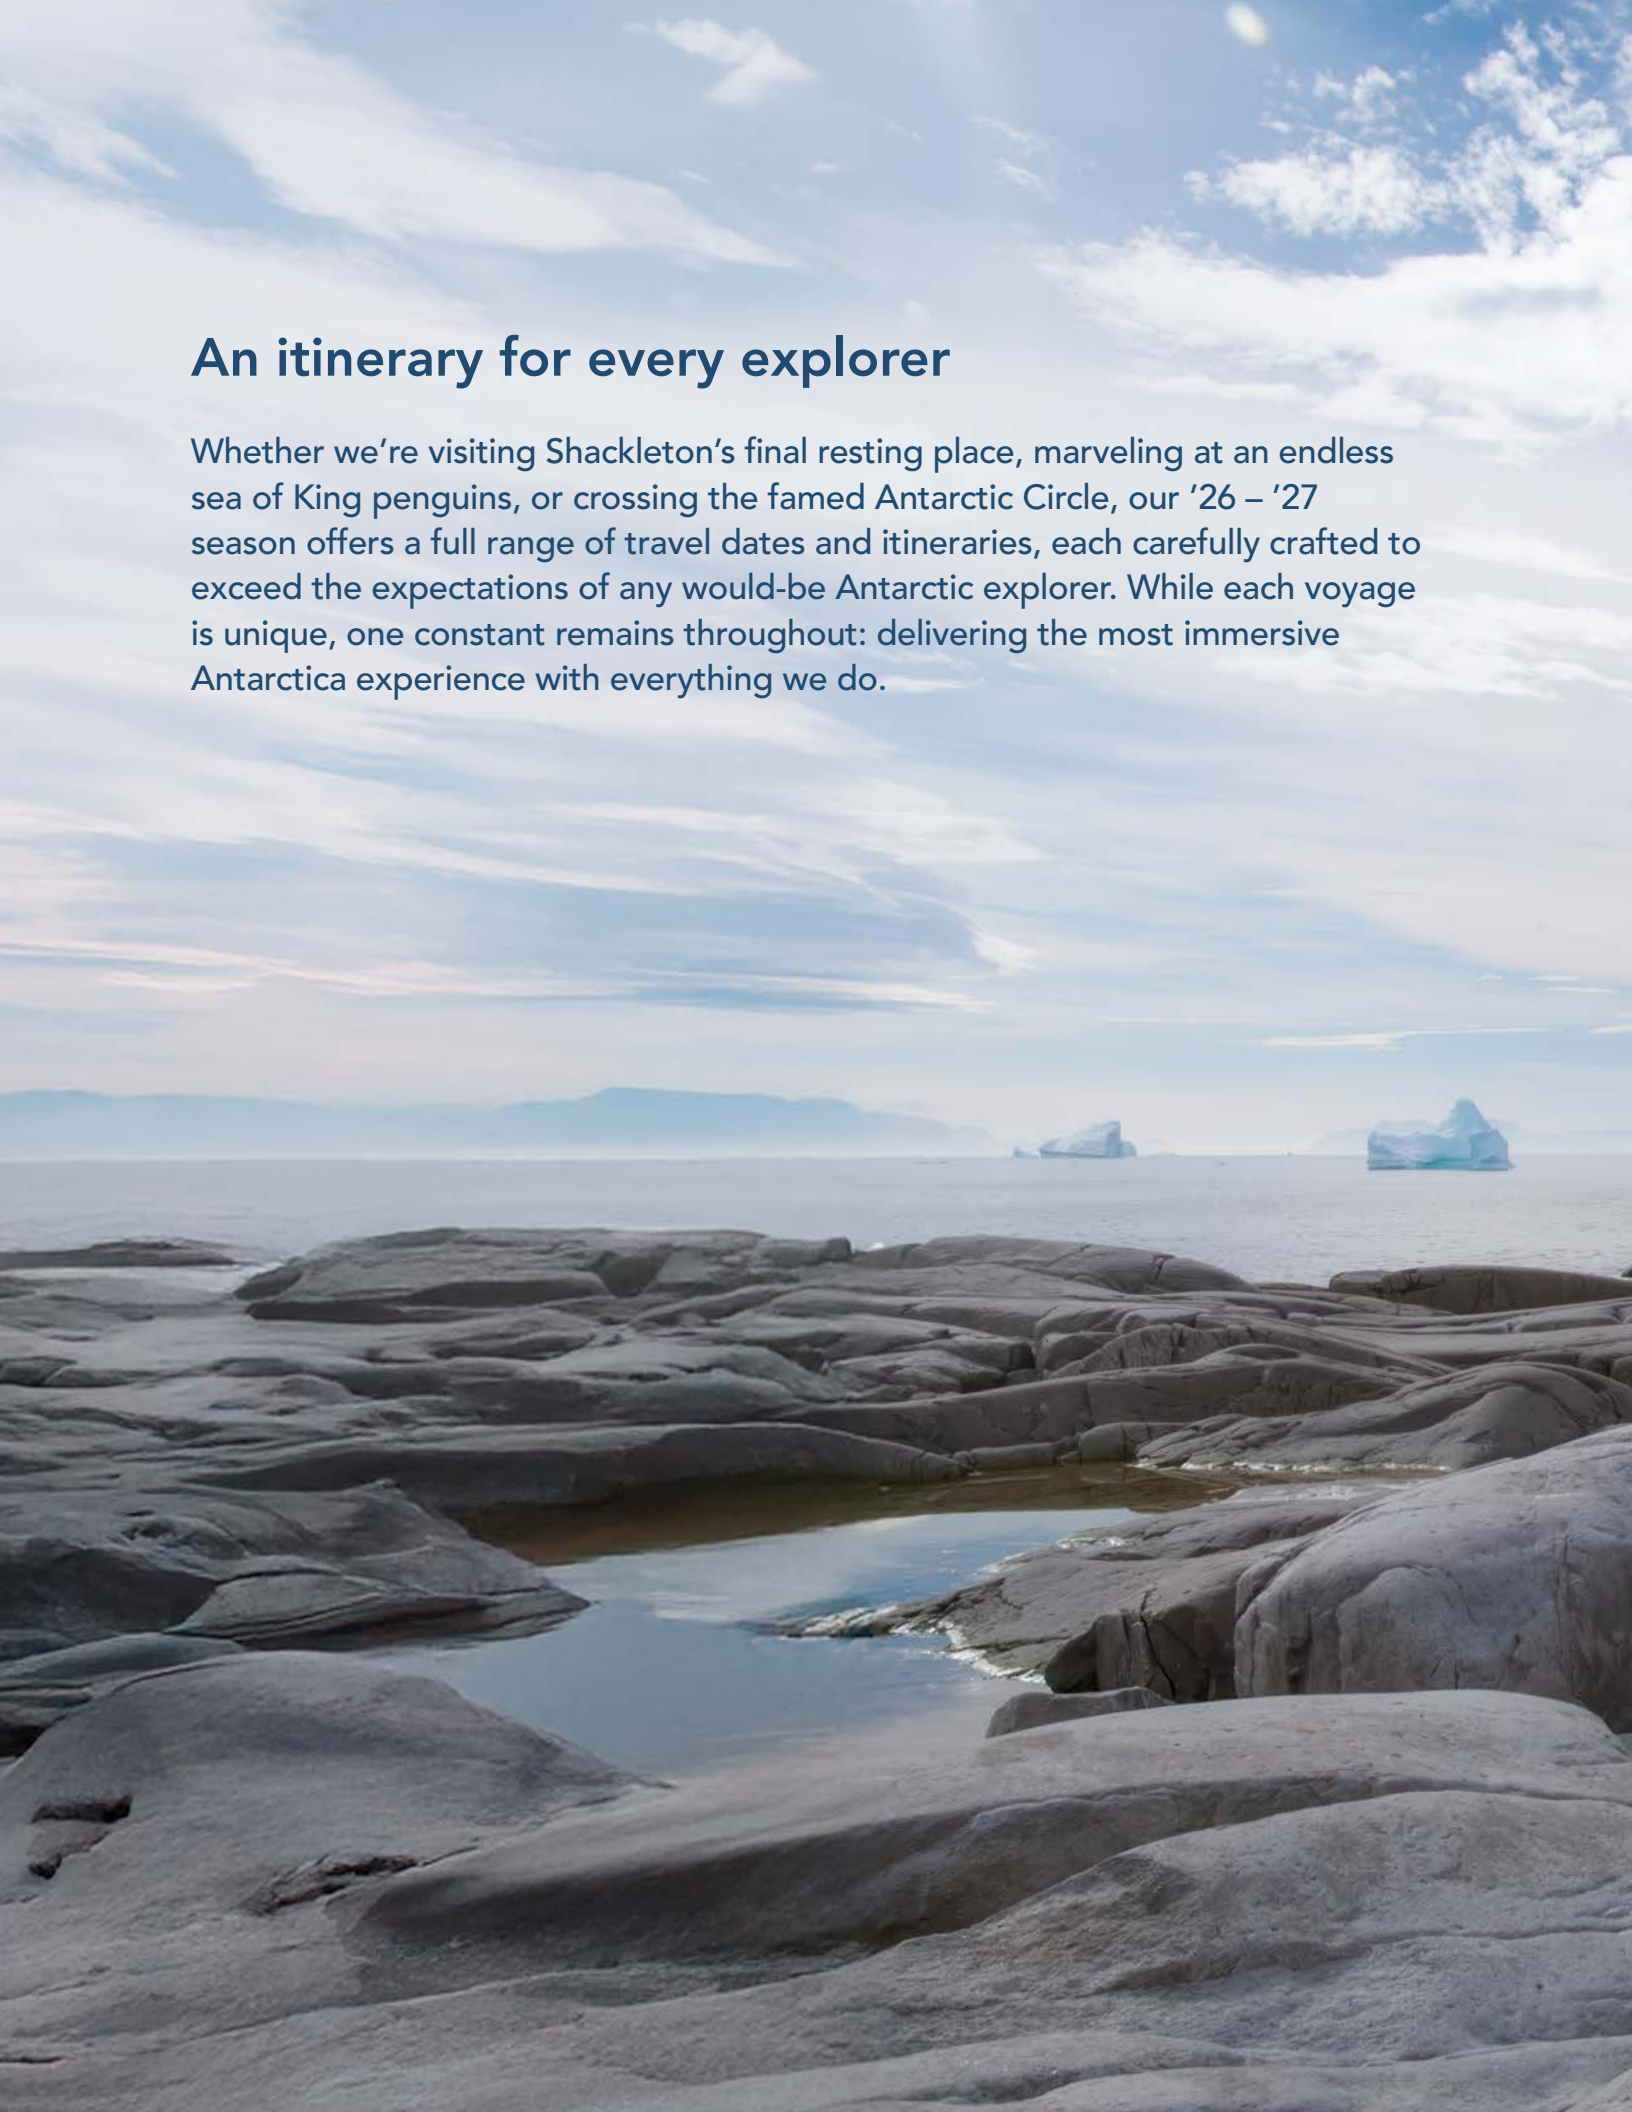

The Lobby Piano Bar features splendid views and an assortment of tasty local treats to accompany your cocktails. The Resort's "La Cravia" restaurant offers both Argentine and international cuisine. Typical dinner entrees include Argentine barbecue, spider crab, lamb and black hake.

In the morning enjoy a complimentary breakfast before your afternoon departure. Relax at the resort, or head into Ushuaia for some pre-embarkation shopping.

An itinerary for every explorer

Whether we're visiting Shackleton's final resting place, marveling at an endless sea of King penguins, or crossing the famed Antarctic Circle, our '26 – '27 season offers a full range of travel dates and itineraries, each carefully crafted to exceed the expectations of any would-be Antarctic explorer. While each voyage is unique, one constant remains throughout: delivering the most immersive Antarctica experience with everything we do.

ANTARCTICA SPRINGS TO LIFE

10 DAYS / 8 NIGHTS ON BOARD

USHUAIA TO USHUAIA

The most Antarctica for time-challenged explorers.

Explore Antarctica in all its pristine and wildlife-rich glory, as the continent awakens from its long winter slumber. This voyage offers the perfect introduction to Antarctica for those whose time may be limited, but whose spirit of exploration is boundless. Prepare yourself for a trip into a lively environment populated by penguins courting mates, building nests and tending to their eggs; the passing of newly adrift icebergs; and colorful sunsets that most photographers only dream of. This is the time of year when your chance of spotting another ship in the water is at its lowest.

HIGHLIGHTS

- The best Introduction to Antarctica for those with high ambitions and limited time
- Explore a pristine, untouched continent just opening up after a long winter's nap
- Witness penguins choosing mates, building nests, tending to their eggs
- Enjoy spectacular, colorful sunsets and encounter massive icebergs
- With fewer ships in the water, you'll feel like Antarctica is all yours

EXPEDITION DATE ABOARD OCEAN VICTORY

Arrive	Board	Disembark
Nov 13, 2026	Nov 14, 2026	Nov 22, 2026

Day 1, Arrive in and explore Ushuaia

After a friendly welcome at the airport and a transfer to the luxurious Arakur Resort & Spa (or another of Ushuaia's top luxury hotels), take some time to unwind or explore the southernmost city in the world, Ushuaia.

Our evening briefing is your opportunity to ask questions and meet some of your fellow explorers.

Day 2, All aboard!

Spend your morning relaxing at the hotel, visiting a museum, or exploring the shops in Ushuaia, before our mid-afternoon escort to the ship. Our Expedition Team and ship staff will welcome you on board and get you settled in, followed by a safety and orientation briefing and our Captain's welcome dinner. We're on our way to Antarctica!

Days 3-4, Drake Passage

Join our Polar Experts as they share their vast knowledge of Antarctica, from its enchanting wildlife to its bold history. Participate in our pioneering Citizen Science program or sit back and take in this fabled journey while catching glimpses of rarely seen wildlife. Keep your binoculars handy to identify the many seabirds that escort our ship as we cross the Antarctic Convergence into Antarctica's waters and noticeably cooler temperatures.

Day 5, South Shetland Islands

Over time, the volcanic activity of the South Shetland Islands has created a geology unlike any other. Here, you can expect a rugged display of mountains, glaciers, and wildlife returning to their busy daily activity after the long winter break. Chinstrap and Gentoo penguins will be a common sight, and it's not uncommon to share the water's edge with Elephant and Fur seals. Whales are often spotted as well. So, we'll settle into our Zodiacs and spend most of our day exploring, perhaps stopping for a walk along the black sands of Deception Island. Whether on land or sea, in a Zodiac or kayak, be prepared for a fully immersive introduction to this incomparable part of the world.

Days 6-7, Antarctica in the Spring

Welcome to Antarctica in all its just-waking-up-from-winter glory. Untouched. Pristine. Getting busy. For the next couple of days, prepare to be amazed as we observe numerous species of penguins coming ashore and getting acquainted, building nests, and tending their eggs. Marvel at the winter sea ice that mantles these frigid seas, feast your eyes on glorious icebergs beginning the springtime march, and, as always, be on the lookout for seals and whales in the water. At day's

end, take in the miraculous sunsets that are a special treat this time of year. Visits to active scientific bases and historic landing sites may also be on the agenda.

Days 8–9, Drake Passage

We leave this magical place and make our way north, once again crossing the legendary Drake Passage. We have one last hurrah as we celebrate the conclusion

of our expedition with a special slideshow, passenger photo contest, and a final celebratory meal together. Congratulations, explorers!

Day 10, Ushuaia disembarkation

With huge smiles on weary, content faces, we disembark in the morning, letting you catch a flight to Buenos Aires or stay in Ushuaia for more sights and adventure.

EXPLORING ANTARCTICA'S SPRING

11 DAYS / 9 NIGHTS ON BOARD

USHUAIA TO USHUAIA

Antarctica awakens after a long winter slumber.

With a strong focus on exploring the Peninsula in all its incomparable glory, this voyage offers an immersive Antarctica adventure at a time of year when the continent is a pristine, just-waking-up hub of activity. As winter gives way to spring, prepare yourself for a trip into a pristine and lively environment populated by penguins courting mates, building nests, and tending to their eggs; where the passing of newly adrift icebergs dazzles the eye; and where fiery sunsets are the stuff of photographers' dreams. All at a time of year when your chance of spotting another ship in the water is at its lowest, and the continent feels all your own.

HIGHLIGHTS

- A chance to explore the best of Antarctica's wildlife and history
- Explore a pristine, untouched continent just opening up its winter slumber
- Witness penguins choosing mates, building nests, and tending to their eggs
- Photographers, prepare for spectacular, colorful sunsets, more common this time of year
- It's also a time of year with more icebergs and fewer ships in the water

ANTARCTICA'S WHALE SEASON

11 DAYS / 9 NIGHTS ON BOARD

USHUAIA TO USHUAIA

A time when whales come out to play. Every voyage into Antarctica is a wildlife lover's dream journey. And this trip will certainly be no different. Expect to encounter a variety of iconic penguins, any number of different seal species, and Antarctica's always-majestic icebergs. But this voyage will feature one notable (and very large) addition to the spectacle: This time of year, whale spotting is at its entertaining best, with large numbers of giant Humpbacks feeding on the abundance of krill in the water. Orcas and Minkes are also common sightings on this very special voyage into the last truly wild place on Earth.

HIGHLIGHTS

- A time of year when whales are at their most plentiful and active
- Expect magnificent wildlife encounters with penguins, seals, and seabirds are common
- Receding ice means we can venture even further south
- Visit some of the most stunning bays and channels, historic sites, and potentially an active research base.
- Zodiac cruising amongst colossal glaciers and massive icebergs

Participate in our pioneering Citizen Science program, or sit back and take in this fabled journey while catching glimpses of rarely-seen wildlife. Keep your binoculars handy to identify the many seabirds that escort our ship as we cross the Antarctic Convergence into Antarctica's waters and noticeably cooler temperatures, your cue to get ready for that first iceberg sighting, an unforgettable moment on every journey.

Days 5-6, South Shetland Islands

The South Shetlands are 12 islands separated from the Antarctic Peninsula by the Bransfield Strait. Significant volcanic activity has sculpted a geology – and a diverse natural beauty – unlike anywhere else on Earth. Here, you can expect a spectacular display of mountains, glaciers, and wildlife, including Chinstrap and Gentoo penguins, and it's not uncommon to share the water's edge with Elephant and Fur seals. And this time of year is feeding time for Humpback whales, so don't be surprised if you're joined by a number of them on your day's adventure.

Days 7-8, Antarctica (and whales) await

On to the Antarctic Peninsula, where we'll explore any number of stunning bays and famed landing sites, maneuvering through majestic channels as we continue to navigate these wildlife-rich waters, passing any number of glorious icebergs, on our way to historic landing sites and perhaps even an active scientific base. Of course, a spectacular highlight of this voyage is the likelihood of encountering the giant Humpback whale – or many of them! - feeding on the abundance of krill in the water this time of year. Orcas and Minkes are also common sightings, as are a variety of penguins and seals.

Days 9-10, Drake Passage homeward

We leave this magical place and make our way north, once again crossing the legendary Drake Passage. We have one last hurrah as we celebrate the conclusion of our expedition with a special slideshow, passenger photo contest, and a final celebratory meal together. Congratulations, explorers!

Day 11, Disembark in Ushuaia

With huge smiles on weary, content faces, we disembark in the morning, letting you catch a flight to Buenos Aires or stay in Ushuaia for more sights and adventure.

CELEBRATING NEW YEAR'S IN ANTARCTICA

11 DAYS / 9 NIGHTS ON BOARD

USHUAIA TO USHUAIA

Celebrate the new year in the most beautiful and inspiring place on earth. Journey through the wildlife-rich Weddell Sea and into the spectacular snow-covered Antarctic Peninsula. Join us as we ring in the new year alongside Mother Nature herself, in the form of spectacular tabular icebergs, radiant glaciers, colonies of Adélie, Chinstrap, and other penguin species, and an array of seals. And stay on the lookout for a likely sighting of Orca on the hunt. Welcoming the new year in Antarctica. It's a holiday moment unlike any other.

HIGHLIGHTS

- Celebrate New Year's Eve in the last truly wild place on earth
- Journey through the otherworldly landscape of the Weddell Sea
- Expect wildlife encounters with penguins, whales, seals, and rare seabirds
- Zodiac cruise through the Antarctic Sound amongst colossal tabular icebergs
- Pay a visit to a variety of penguin rookeries, as well as historic landing sites and working research bases

EXPEDITION DATE ABOARD OCEAN NOVA

Arrive	Board	Disembark
Dec 26, 2026	Dec 27, 2026	Jan 5, 2027

Day 1, Arrive in and explore Ushuaia

After a friendly welcome at the airport and a transfer to the luxurious Arakur Resort & Spa (or another of Ushuaia's top luxury hotels), take some time to unwind or explore the southernmost city in the world, Ushuaia.

Our evening briefing is your opportunity to ask questions and meet some of your fellow explorers.

Day 2, All aboard!

Spend your morning relaxing at the hotel, visiting a museum, or exploring the shops in Ushuaia, before our mid-afternoon escort to the ship. Our Expedition Team and ship staff will welcome you on board and get you settled in, followed by a safety and orientation briefing and our Captain's welcome dinner. We're on our way to Antarctica!

Participate in our pioneering Citizen Science program or sit back and take in this fabled journey while catching glimpses of rarely seen wildlife. Keep your binoculars handy to identify the many seabirds that escort our ship as we cross the Antarctic Convergence into Antarctica's waters and noticeably cooler temperatures

Days 5, Antarctic Sound and Weddell Sea

We maneuver through the mysterious channels and wildlife-rich waters of the Antarctic Sound and Weddell Sea, the perfect place to ensure an unforgettable holiday adventure. The Antarctic Sound is well known for its huge tabular icebergs, and the Weddell Sea offers a unique geography unlike anywhere else on earth. Here we'll take in the abundant wildlife such as Adélie penguins and seals as we keep on the lookout for hunting Orca.

Days 6-7, Happy New Year, Antarctica!

Time to put our explorer's spirit to full use. Antarctica offers astounding landscapes and wildlife encounters at every turn, as the last truly unspoiled place on earth, populated only by its original wild inhabitants. Prepare yourself to encounter numerous species of penguins, seals, and whales, who will be there to share the holidays with us along the rugged coastlines and in the sea. We'll also take full advantage of every opportunity to visit some of the several active scientific bases and historic landing sites on the peninsula. And as we cross over from 2026 to 2027, we'll raise a glass to the last truly wild place on the planet.

Day 8, South Shetland Islands

Over time, the volcanic activity of the South Shetland Islands has created a geology unlike any other. Here, you can expect a spectacular display of mountains, glaciers, and wildlife, including Chinstrap and Gentoo

penguins, and it's not uncommon to share the water's edge with Elephant and Fur seals. Whales are often spotted as well. So, we'll settle into our Zodiacs and spend most of our day exploring. And kayakers, it's time to get your first taste of gliding just inches off the pristine Antarctic water. Whether on land or sea, in Zodiac or kayak, be prepared for a fully immersive introduction to this incomparable part of the world.

Days 9-10, Drake Passage

We leave this magical place and make our way north,

once again crossing the legendary Drake Passage. We have one last hurrah as we celebrate the conclusion of our expedition with a special slideshow, passenger photo contest, and a final celebratory meal together. Congratulations, explorers!

Day 11, Ushuaia disembarkation

With huge smiles on weary, content faces, we disembark in the morning, letting you catch a flight to Buenos Aires or stay in Ushuaia for more sights and adventure.

CHRISTMAS SEASON IN ANTARCTICA

11 DAYS / 9 NIGHTS ON BOARD

USHUAIA TO USHUAIA

A holiday in the most spiritually uplifting place on earth. The Christmas season is a time for joy, reflection, and magical moments, and nowhere on earth delivers all of those – and all at once – as does a journey through the wildlife-rich Weddell Sea and into the spectacular snow-covered Antarctic Peninsula. Join us as we share the holidays peacefully co-existing with Mother Nature herself. You'll be celebrating among massive tabular icebergs, glorious and radiant glaciers, colonies of Adélie, Chinstrap, and other penguin species, and an array of seals, all the while staying on the lookout for a likely sighting of Orca on the hunt. Christmas time in Antarctica. It's a holiday experience unlike any other.

HIGHLIGHTS

- Celebrate the holidays in the most beautiful and inspiring place on earth
- Journey through the otherworldly landscape of the Weddell Sea
- Expect wildlife encounters with penguins, whales, seals, and rare seabirds
- Zodiac cruise through the Antarctic Sound amongst colossal tabular icebergs
- Pay a visit to a variety of penguin rookeries, as well as historic landing sites and working research bases

BEST OF ANTARCTICA'S WHALE SEASON

12 DAYS / 10 NIGHTS ON BOARD

USHUAIA TO USHUAIA

One more day in this whale lover's paradise.

Antarctica during peak whale-spotting season is something truly special. If only you could have just one more day with these magnificent and often elusive creatures. On this expedition, you can. While every voyage into Antarctica is a wildlife lover's dream journey, with a variety of iconic penguins, a number of seal species, and Antarctica's always-majestic icebergs within everyday view, this voyage features an extra day in the company of the incomparable Humpback, any number of whom will be feeding on the abundance of krill in the water this time of year. Orcas and Minkes are also common sightings, adding yet another bonus to this very special expedition.

HIGHLIGHTS

- An extra day in the company of the magnificent Humpback whale
- Penguin colonies are also active, with molting chicks a common sight.
- Also enjoy wildlife encounters with seals, seabirds, and Orcas
- We'll visit some of the most stunning bays and channels of the Peninsula
- Zodiac cruising amongst colossal glaciers and massive icebergs
- Potential stops at active scientific bases and historical sites

Our evening briefing is your opportunity to ask questions and meet some of your fellow explorers.

Day 2, All aboard!

Spend your morning relaxing at the hotel, visiting a museum, or exploring the shops in Ushuaia, before our mid-afternoon escort to the ship. Our Expedition Team and ship staff will welcome you on board and get you settled in, followed by a safety and orientation briefing and our Captain's welcome dinner. We're on our way to Antarctica!

Days 3-4, Drake Passage

Join our Polar Experts as they share their vast knowledge of Antarctica, from its enchanting wildlife to its bold history. Participate in our pioneering Citizen Science program, or sit back and take in this fabled journey while catching glimpses of rarely-seen wildlife. Keep your binoculars handy to identify the many seabirds that escort our ship as we cross the Antarctic Convergence into Antarctica's waters and noticeably cooler temperatures, your cue to get ready for that first iceberg sighting, an unforgettable moment on every journey.

Days 5-6, South Shetland Islands

The South Shetlands are 12 islands separated from the Antarctic Peninsula by the Bransfield Strait. Significant volcanic activity has sculpted a geology – and a diverse natural beauty – unlike anywhere else on Earth. Here, you can expect a spectacular display of mountains, glaciers, and wildlife, including Chinstrap and Gentoo penguins, and it's not uncommon to share the water's edge with Elephant and Fur seals. And this time of year is feeding time for Humpback whales, so don't be surprised if you're joined by a number of them on your day's adventure.

Days 7-9, Antarctica (and whales) await

On to the Antarctic Peninsula, where we'll explore any number of stunning bays and famed landing sites, maneuvering through majestic channels as we continue to navigate these wildlife-rich waters, passing any number of glorious icebergs, on our way to historic landing sites and perhaps even an active scientific base. Of course, a particular highlight of this voyage is the privilege of spending an extra day in the company of the giant Humpback whale – or many of them! - feeding on the abundance of krill in the water this time of year. Orcas and Minkes are also common sightings, as are a variety of penguins and seals.

Days 10-11, Drake Passage homeward

We leave this magical place and make our way north, once again crossing the legendary Drake Passage. We have one last hurrah as we celebrate the conclusion of our expedition with a special slideshow, passenger photo contest, and a final celebratory meal together. Congratulations, explorers!

Day 12, Disembark in Ushuaia

With huge smiles on weary, content faces, we disembark in the morning, letting you catch a flight to Buenos Aires or stay in Ushuaia for more sights and adventure.

ANTARCTIC PENINSULA: THE CLASSIC VOYAGE

12 DAYS / 10 NIGHTS ON BOARD

USHUAIA TO USHUAIA

One more day to explore, discover, and be changed forever. Explore the very best of Antarctica's diverse wildlife and ethereal landscapes, with an extra day to take advantage of this wonderfully unpredictable environment and the surprises that await. Depending on where and when an opportunity may present itself, we might venture further into the historic and wildlife-rich South Shetland Islands, where you'll be greeted by Gentoo and Chinstrap penguins, and surrounded by a geology unlike any other on earth. Or perhaps we'll take advantage of our ship's extraordinary ice-breaking capability to explore deeper into the mysterious Antarctic Peninsula. With an extra day on the agenda, the possibilities are endless.

HIGHLIGHTS

- Witness the stunning landscapes and beautiful bays and channels of the Peninsula
- Have unforgettable wildlife encounters with numerous species of penguins, whales, seals, and seabirds
- Zodiac cruise amongst immense glaciers and enormous icebergs
- Potential stops at active scientific bases and historic sites like Damoy Point
- Keep an eye out for the predatory Giant Petrel

Day 1, Arrive in and explore Ushuaia

After a friendly welcome at the airport and a transfer to the luxurious Arakur Resort & Spa (or another of Ushuaia's top luxury hotels), take some time to unwind or explore the southernmost city in the world, Ushuaia.

Our evening briefing is your opportunity to ask questions and meet some of your fellow explorers.

Day 2, All aboard!

Spend your morning relaxing at the hotel, or visit a museum or the Argentinean leather markets in Ushuaia, before or just relaxing at the hotel until our mid-afternoon escort to the ship. Our Expedition Team and ship staff will welcome you on board and get you settled in, followed by a safety and orientation briefing and our Captain's welcome dinner. We're on our way to Antarctica!

Days 3-4, Drake Passage

Days 5-6, South Shetland Islands

Over time, the volcanic activity of the South Shetland Islands has created a geology unlike any other. Here, you

can expect a spectacular display of mountains, glaciers, and wildlife, including Chinstrap and Gentoo penguins, and it's not uncommon to share the water's edge with Elephant and Fur seals. Whales are often spotted as well. We'll settle into our Zodiacs and spend most of our day exploring, taking unforgettable photographs, and planting our footsteps on the endlessly diverse landscape. With an extra day in the itinerary, a visit to the black sand beaches and rusted ruins of Deception Island is always at the top of our list.

Days 7-9, Immersive Antarctica

Welcome to Antarctica in all its awe-inspiring glory. For the next few days, we'll explore any number of picturesque bays and famed landing sites, maneuvering through majestic channels, where glorious icebergs and an array of beguiling wildlife share the highly active waters. Prepare to be amazed as we spot numerous species of penguins, seals, and whales, both along

the rugged coastline as well as in the sea. A night of camping under the stars is also an unforgettable highlight for those who sign up. There are great opportunities to stop at several active scientific bases and historic landing sites, and we plan to take full advantage of all the continent offers.

Days 10-11, Drake Passage

We leave this magical place and make our way north, once again crossing the legendary Drake Passage. We have one last hurrah as we celebrate the conclusion of our expedition with a special slideshow, passenger photo contest, and a final celebratory meal together. Congratulations, explorers!

ANTARCTIC PENINSULA: AN IMMERSIVE ODYSSEY

13 DAYS / 11 NIGHTS ON BOARD

USHUAIA TO USHUAIA

All the time you need to explore Antarctica's most hidden wonders. Our longest and most in-depth Antarctic Peninsula expedition, this voyage offers you maximum time to experience all the highlights and marvels of Antarctica. And with time to spare, we'll take full advantage of unexpected opportunities to engage with the continent's breathtaking landscapes and extraordinary array of wildlife. Encounter Weddell seals lazing on ice floes, whales breaching the frigid waters, and several species of penguins shuffling across the frozen shores. Our smallest and most nimble expedition ship, Ocean Nova, is ideally suited to uncover the continent's hidden treasures, and our supremely trained and experienced teams are well prepared to make every day truly unique and special.

HIGHLIGHTS

- Our longest and deepest Peninsula experience
- Venture into the breathtaking Lemaire Channel
- Visit historic huts at Damoy Point, witness humpbacks in Wilhelmina Bay
- Visit colonies of Chinstrap, Gentoo, and other penguin species.
- Walk the black sands and eerie landscape of Deception Island

EXPEDITION DATES ABOARD OCEAN NOVA

Dec 15, 2026	Dec 16, 2026	Dec 27, 2026

Day 1, Arrive in and explore Ushuaia

After a friendly welcome at the airport and a transfer to the luxurious Arakur Resort & Spa (or another of Ushuaia's top luxury hotels), take some time to unwind or explore the southernmost city in the world, Ushuaia.

Our evening briefing is your opportunity to ask questions and meet some of your fellow explorers.

Day 2, All aboard!

Spend your morning relaxing at the hotel, visiting a museum, or exploring the shops in Ushuaia, before our mid-afternoon escort to the ship. Our Expedition Team

and ship staff will welcome you on board and get you settled in, followed by a safety and orientation briefing and our Captain's welcome dinner. We're on our way to Antarctica!

Days 3-4, Drake Passage

Join our Polar Experts as they share their vast knowledge of Antarctica, from its enchanting wildlife to its bold history. Participate in our pioneering Citizen Science program or sit back and take in this fabled journey while catching glimpses of rarely seen wildlife. Keep your binoculars handy to identify the many seabirds that escort our ship as we cross the Antarctic Convergence into Antarctica's waters and noticeably cooler temperatures.

Day 5-7, Antarctic Sound and Weddell Sea

This area boasts some of Antarctica's most striking scenery, from the vast Adelie Penguin colonies at Hope Bay and Devil's Island, to the dramatic volcanic cliffs at Brown Bluff. Continuing southward into the Weddell Sea, we encounter immense tabular icebergs and the expansive icepack that nurtures Antarctic krill, the foundation of the food chain. The presence of krill attracts a diverse array of wildlife, including penguins, seals, seabirds, and humpback whales, all of which we hope to see while exploring this icy wilderness.

Days 8-9, Antarctic Peninsula

In the days ahead, we venture further west along the Antarctic Peninsula into the Gerlache Strait region. Our Expedition Leader and Captain will plot a route to explore a variety of sites highlighting the area's staggering natural beauty.

The Gerlache Strait offers a dazzling array of iconic

Antarctic experiences. From Zodiac cruises in Paradise Bay, to witnessing penguins nesting on Cuverville Island, each potential stop promises yet another unforgettable encounter. Our wish list includes exploring historic huts at Damoy Point, witnessing humpback whales in Wilhelmina Bay, and marveling at the jaw-dropping scenery of the Lemaire Channel. Wherever we go on the Antarctic Peninsula, endemic wildlife, tantalizing history and breathtaking natural beauty abound.

Day 10, South Shetland Islands

This archipelago represents the northernmost tip of Antarctica, standing proud against the relentless force of the Southern Ocean. The ice-capped peaks of Livingstone, Greenwich, and King George Islands offer a stunning backdrop to explore. And despite the furious elements, the islands boast a remarkable richness of wildlife, with numerous colonies of Gentoo and Chinstrap Penguins dotting the island shores,

accompanied by an array of formidable seabirds like the predatory Giant Petrels. Weather permitting, we'll explore the eerie landscape of Deception Island, an active volcanic crater with black steaming black and rusting ruins, and immerse ourselves in the history of Yankee Harbour, once a vital anchorage for sealers.

Days 11-12, Drake Passage

We leave this magical place and make our way north, once again crossing the legendary Drake Passage. We have one last hurrah as we celebrate the conclusion of our expedition with a special slideshow, passenger photo contest, and a final celebratory meal together. Congratulations, explorers!

Day 13, Ushuaia disembarkation

With huge smiles on weary, content faces, we disembark in the morning, letting you catch a flight to Buenos Aires or stay in Ushuaia for more sights and adventure.

CROSSING THE ANTARCTIC CIRCLE

13 DAYS / 11 NIGHTS ON BOARD

USHUAIA TO USHUAIA

Welcoming the New Year, where few have gone before. This is the ultimate explorer's journey, to the Southernmost part of the world. We chart a course along the Antarctic Peninsula with the ambition of being among the very few to cross the Antarctic Circle. Along the way, we'll likely encounter some of Antarctica's most engaging full-time residents – Humpback and Orca whales, seals and, of course, a variety of those always-entertaining penguins. The farther south we go, the more dramatic sea ice we are likely to encounter, along with incredible wildlife and awe-inspiring scenery. Should we arrive at 66°33'S, we'll join the small band of Antarctic explorers who can claim they have made it this far south. Celebration ensues!

HIGHLIGHTS

- Explore the many stunning bays and inlets of the Antarctic Peninsula
- Experience penguin rookeries, research stations, and historic sites.
- Feel your jaw drop as you take in the massive glittering cliffs of the Gerlache Strait
- Set your sights on crossing the Antarctic Circle at 66°33'S
- Raise a glass as you count yourself among the few who have ventured this far south
- Potential stops at active scientific bases and historical sites

Day 13, Ushuaia disembarkation

With huge smiles on weary, content faces, we disembark in the morning, letting you catch a flight to Buenos Aires or stay in Ushuaia for more sights and adventure.

EXTENDED ANTARCTIC CIRCLE CROSSING

14 DAYS / 12 NIGHTS ON BOARD

USHUAIA TO USHUAIA

Taking more time to explore this magical place.

Venturing far south towards the Antarctic Circle is always one of our most popular voyages, so on this itinerary, we've added an extra day – more time to immerse yourself in this magical part of the world. On our journey south along the Antarctic Peninsula, you can expect to encounter some of Antarctica's most engaging full-time residents – Humpback and Orca whales, seals, and, of course, a variety of those always-entertaining penguins. The farther south we go, a pristine environment becomes even more so, with the ultimate goal of reaching 66°33'S, and joining the small band of Antarctic explorers who can claim they have made it this far south.

HIGHLIGHTS

- On our journey south, visit some of the most stunning bays and inlets of the Peninsula
- Expect magnificent wildlife encounters with penguins, whales, seals, and seabirds
- Zodiac cruise amongst colossal glaciers and massive icebergs
- Feel your pulse quicken during our anticipated success reaching 66°33'S
- Count yourself among the few who have ventured this far south
- Potential stops at active scientific bases and historical sites

ULTIMATE ANTARCTIC CIRCLE CROSSING

15 DAYS / 13 NIGHTS ON BOARD

USHUAIA TO USHUAIA

You've come this far. Indulge your inner explorer just a little bit longer. Reaching the Antarctic Circle is a rare and very special accomplishment, and for those who want to make the absolute most of their time here in this Southernmost natural wonderland, we created this very special itinerary. With a generous amount of time to explore and discover all that the continent has to offer, this expedition gives us the most opportunity to seek out rarely visited sites, encounter an array of wildlife, and take advantage of every opportunity to uncover the continent's many secrets.

HIGHLIGHTS

- The most time in the southernmost part of the world
- Visit some of the most stunning bays and inlets of the Peninsula
- Expect magnificent wildlife encounters with penguins, whales, seals and seabirds
- Zodiac cruise amongst colossal glaciers and massive icebergs
- Share the water with penguins, seals and whales
- Count yourself among the few who have ventured this far south

Days 6-9, Achieving the Antarctic Circle

Heading south across the Bransfield Strait, we begin to see the breathtaking outline of the Antarctic Peninsula. Wildlife sightings, including penguins, whales, and fur seals, become more frequent, as do dramatic sculptural icebergs. With extra time to explore, possibilities abound. We'll look to visit historic sites like the huts at Damoy Point, keep an eye out for humpback whales in

Wilhelmina Bay, and continue our twice-daily outings until we reach the crown jewel of this expedition, the jaw-dropping scenery through the Lemaire Channel. Weather permitting, we'll cross the Antarctic Circle at 66°33'S, an achievement that will put you in rare company. Following a tradition first established by sailors crossing the equator, we'll celebrate the occasion by... (Sorry, you just have to be there), before heading onward toward any number of historic and rarely visited British Survey bases, after which we turn back north.

Days 10-12, Antarctic Peninsula

Heading north, we'll explore all the Antarctic Peninsula has to offer, including any number of spectacular bays and famed landing sites, maneuvering through dramatic channels as we traverse the wildlife-rich waters, encountering a wide variety of lively penguins, seals, and whales along the rugged coastlines and in the sea.

There are always great opportunities to stop at several active scientific bases and historic landing sites along the way, as we leave no opportunity unseized upon in our quest to explore the very best of this magical place.

Days 13-14, Drake Passage

We leave this magical place and make our way north, once again crossing the legendary Drake Passage. We have one last hurrah as we celebrate the conclusion of our expedition with a special slideshow, passenger photo contest, and a final celebratory meal together. Congratulations, explorers!

Day 15, Ushuaia disembarkation

With huge smiles on weary, content faces, we disembark in the morning, letting you catch a flight to Buenos Aires or stay in Ushuaia for more sights and adventure.

FALKLAND ISLANDS, S GEORGIA & ANTARCTICA

20 DAYS / 18 NIGHTS ON BOARD

USHUAIA TO USHUAIA

A wildlife lover's dream journey. The sub-Antarctic Falkland Islands/Malvinas, and neighboring South Georgia, are home to some of the most unique and abundant wildlife on earth, populating a rugged terrain and cliff-lined coast that is every bit as mesmerizing as those who call it home. With beaches covered in fur seals, elephant seals, and hundreds of thousands of penguins, it's one of the most jaw-dropping nature scenes you will ever experience. We'll have ample time to explore the fascinating history of the area, dating back to the grandiose times of the 'Heroic Age of Antarctic Exploration' of the late 1800s and early 1900s, before heading to the Antarctic Peninsula for an equally life-affirming act two.

HIGHLIGHTS

- Learn first-hand why South Georgia is often called "the Serengeti of the Southern Ocean"
- Visit a number of historic sites and set foot on a wide variety of and rugged natural landscapes
- Marvel at penguin rookeries with hundreds of thousands of birds
- Spot rare bird species as you Zodiac cruise amongst colossal icebergs and glittering glaciers
- Potential encounters include Orca, Humpback and Minke whales
- Exploring the history-rich port of Stanley, and learn about the "Heroic Age of Exploration"
- Pay a visit to Grytviken, a former whaling station, and the gravesite of Sir Ernest Shackleton
- With a generous number of days in our itinerary, we'll take advantage of a myriad of spontaneous opportunities to explore

Feb 10, 2027	Feb 11, 2027	Mar 1, 2027

Day 1, Arrive in and explore Ushuaia

After a friendly welcome at the airport and a transfer to the luxurious Arakur Resort & Spa (or another of Ushuaia's top luxury hotels), take some time to unwind or explore the southernmost city in the world, Ushuaia.

Our evening briefing is your opportunity to ask questions and meet some of your fellow explorers.

Day 2, All aboard!

Spend your morning relaxing at the hotel, visiting a museum, or exploring the shops in Ushuaia, before our mid-afternoon escort to the ship. Our Expedition Team and ship staff will welcome you on board and get you settled in, followed by a safety and orientation briefing and our Captain's welcome dinner. We're on our way to Antarctica!

Day 3, Southern Ocean

As we sail south, important briefings on environmental regulations and expedition safety are held, and you won't want to miss our scientific and environmental experts as they begin their deeply knowledgeable, and always entertaining talks about the wildlife, history, and geology of the areas we will soon be exploring.

Day 4, West Falklands/Malvinas

We'll be exploring some of the westernmost settled outposts in the Falklands/Malvinas, a remote South Atlantic archipelago renowned for its rugged terrain and cliff-lined coast. As we stretch our legs along the farmland and beaches, we'll have an opportunity to visit Albatross and penguin colonies. Look for Rockhopper, King and Magellanic penguin rookeries.

Day 5, Stanley, East Falklands/Malvinas

The archipelago's largest island, Stanley, is a lively hub of activity nestled in a sheltered harbor. Here, the Falklands Islands Museum has fascinating exhibits devoted to maritime exploration, natural history, and the 1982 Falklands War. We'll likely visit Gypsy Cove, part of Cape Pembroke peninsula, a National Nature Preserve. Magellanic penguins, also known as Jackass penguins for the braying sound they make, breed here, nesting in underground burrows. Other native bird species include Black-Crowned Night herons, Long-Tailed meadowlarks, Two-Banded plovers, and Upland and Kelp geese. Nearby Ordinance Point is the final resting place for several World War II guns.

Days 6-7, Southern Ocean

Things continue ramping up with plenty of birdlife sightings as we make our way east across the Antarctic Convergence and officially enter Antarctic waters. See if you can identify the world's largest bird, the Wandering albatross. From soaring giants like the Southern Giant petrel to the tiny Wilson's Storm petrel, a range of impressive bird species will be hitching a ride on the updrafts created by ocean swells and waves. And be on the lookout for whale blows and our very first iceberg sighting.

Days 8-11, South Georgia

South Georgia is often referred to as the 'Serengeti of the Southern Ocean' and it's easy to see why as you take in tens of thousands (not a typo!) of breeding penguins, seals, and seabirds. Breathtaking mountain scenery, majestically sculpted icebergs, glaciers in every direction, and a rich historical tapestry are all here to

complement the incredible array of wildlife on view as we travel down South Georgia's leeward coast. We'll also visit the historic Grytviken whaling station, featuring the tiny graveyard where the great Antarctic explorer Sir Ernest Shackleton is buried.

Days 12-13, Scotia Sea

Heading farther south, we'll continue our informative presentations and wildlife spotting as the icebergs become bigger and more plentiful.

Days 14-17, Antarctic Peninsula and South Shetland Islands

Here we'll explore any number of picturesque bays and famed landing sites, maneuvering through iceberg-rich channels as we travel alongside an array of wildlife. There are opportunities to stop at several active scientific bases and historic landing sites as we take in the wide range of penguin species, seals, and whales along the rugged coastlines and in the sea.

Days 18-19, Drake Passage

We leave this magical place and make our way north, once again crossing the legendary Drake Passage. We have one last hurrah as we celebrate the conclusion of our expedition with a special slideshow, passenger photo contest, and a final celebratory meal together. Congratulations, explorers!

Day 20, Ushuaia disembarkation

With huge smiles on weary, content faces, we disembark in the morning, letting you catch a flight to Buenos Aires or stay in Ushuaia for more sights and adventure.

ULTIMATE NEW YEAR'S: FALKLANDS, SOUTH GEORGIA, AND ANTARCTIC CIRCLE

23 DAYS / 21 NIGHTS ON BOARD

USHUAIA TO USHUAIA

Ring in the new year on planet Earth's greatest stage. This is our most extensive, most richly varied, most epic journey. As if that weren't enough reason to celebrate, it takes place over New Year's Eve! Join us as we immerse ourselves in the rich history of the Falklands, step onto the rugged terrain and cliff-lined coast of South Georgia, and feast our eyes on beaches covered in fur seals, elephant seals, and hundreds of thousands of penguins, in one of the most jaw-dropping nature scenes you will ever witness. We'll have ample time to explore the fascinating history of the area, dating back to the grandiose times of the 'Heroic Age of Antarctic Exploration' of the late 1800s and early 1900s, before heading to the Antarctic Peninsula, to be greeted by glorious icebergs and glaciers, an array of penguin species, and likely whale encounters. On New Year's Eve, a toast to our great fortune in sharing such an unforgettable moment in this magnificent place will be another highlight. The final act awaits as we attempt to reach 66°33'S and cross The Antarctic Circle, where we'll raise a glass to our great fortune and this magnificent continent, before heading home, knowing we've truly done it all.

HIGHLIGHTS

- Celebrating New Year's on the trip of a lifetime
- Penguin rookeries with hundreds of thousands of birds on South Georgia
- Zodiac cruising amongst colossal icebergs
- Potential encounters with Orca, Humpback and Minke whales
- Exploring the port of Stanley
- A visit to Grytviken, a former whaling station, and the gravesite of Sir Ernest Shackleton

EXPEDITION DATE ABOARD OCEAN ALBATROS

Arrive	Board	Disembark
Dec 22, 2026	Dec 23, 2026	Jan 13, 2027

Day 1, Arrive in and explore Ushuaia

After a friendly welcome at the airport and a transfer to the luxurious Arakur Resort & Spa (or another of Ushuaia's top luxury hotels), take some time to unwind or explore the southernmost city in the world, Ushuaia.

Our evening briefing is your opportunity to ask questions and meet some of your fellow explorers.

Day 2, All aboard!

Our Expedition Team and ship staff will welcome you on board and get you settled in, followed by a safety and orientation briefing and our Captain's welcome dinner. We're on our way to Antarctica!

Day 3, Southern Ocean

As we sail south, important briefings on environmental regulations and expedition safety are held, and you won't want to miss our scientific and environmental experts as they begin their deeply knowledgeable, and always entertaining talks about the wildlife, history, and geology of the areas we will soon be exploring.

Days 4-5, The Falklands

Welcome to a wildlife lover's dream. As you approach this ruggedly beautiful archipelago, keep the camera ready to capture the abundant wildlife and breathtaking scenery of this fascinating part of the world. Here, you'll find the largest black-browed albatross colony in the world and five species of breeding penguin. Bird lovers, stay on the lookout for kelp gulls, dolphin gulls, black-crowned night herons, red-backed hawks, peregrine falcons and turkey vultures. East and West Falklands provide a rare opportunity to witness the biological diversity, extraordinarily diverse landscapes and rich history of the southern islands. Weather permitting, we'll explore Saunders Island, the second-largest island in the Falklands, and The Neck, a narrow peninsula with sandy beaches and subtle cliff faces, where the mighty black-browed albatross build their nesting colonies.

Days 6-7, Southern Ocean

Things continue ramping up with plenty of birdlife sightings as we make our way east across the Antarctic Convergence and officially enter Antarctic waters. See if you can identify the world's largest bird, the Wandering albatross. From soaring giants like the Southern Giant

petrel to the tiny Wilson's Storm petrel, a range of impressive bird species will be hitching a ride on the updrafts created by ocean swells and waves. And be on the lookout for whale blows and our very first iceberg sighting.

Days 8-10, South Georgia

South Georgia is often referred to as the 'Serengeti of the Southern Ocean' and it's easy to see why as you take in tens of thousands (not a typo!) of breeding penguins, seals, and seabirds. Breathtaking mountain scenery, majestically sculpted icebergs, glaciers in every direction, and a rich historical tapestry are all here to complement the incredible array of wildlife on view as we travel down South Georgia's leeward coast. We'll also visit the historic Grytviken whaling station, featuring the tiny graveyard where the great Antarctic explorer Sir Ernest Shackleton is buried.

Days 11-12, Scotia Sea

Heading farther south, we'll continue our informative presentations and wildlife spotting as the icebergs become bigger and more plentiful.

Days 13-17, South Shetland Islands and Antarctica

With twice-daily outing as our goal, we'll explore any number of picturesque bays and famed landing sites, maneuvering through iceberg-rich channels as we travel alongside an array of wildlife. There are opportunities to stop at several active scientific bases and historic landing sites as we take in the wide range of penguin species, seals, and whales along the rugged coastlines and in the sea. Four days give us plenty of time to explore, discover, and be forever changed by the power of the last wild place on earth.

Days 18-19, Antarctic Circle

Venturing to the ends of the earth is a moment to cherish, as not all expeditions venture this far south. We'll take our time gliding through the famed Lemaire channel, accompanied by icebergs of every dazzling shape and size, with the anticipation of reaching latitude 66°33'S. Along the way, you'll marvel at one of our planet's most spectacular 360 landscapes, ushering you towards the legendary Antarctic Circle. Together we'll quietly marvel the sheer rawness of the surroundings and revel in the moment. A toast and celebration awaits should the Circle welcome us. While not a typical landing, the crossing of the Antarctic Circle will leave you breathless, and with one of life's greatest memories.

Day 20, South Shetland Islands and Antarctica

Test your newfound penguin expertise and sharpen your wildlife-spotting skills as you identify fur, leopard, and Weddell seals. Zodiac cruises and shore landings will continue, offering ample opportunities to encounter the peninsula's diverse wildlife and capture stunning photographs of your adventure.

Days 21-22, Drake Passage

We leave this magical place and make our way north, once again crossing the legendary Drake Passage. We have one last hurrah as we celebrate the conclusion of our expedition with a special slideshow, passenger photo contest, and a final celebratory meal together. Congratulations, explorers!

Day 23, Ushuaia disembarkation

With huge smiles on weary, content faces, we disembark in the morning, letting you catch a flight to Buenos Aires or stay in Ushuaia for more sights and adventure.

ULTIMATE EXPLORER: FALKLANDS, S GEORGIA & ANTARCTIC CIRCLE

24 DAYS / 22 NIGHTS ON BOARD

USHUAIA TO USHUAIA

When you can't get enough of a life-changing experience. This, to sum it up plainly, is the expedition for those would-be explorers who want it all, and have the time available to experience it all, in one epic, unforgettable journey. You'll immerse yourself in the rich history of the Falklands, step onto the rugged terrain and cliff-lined coast of South Georgia, and feast your eyes on beaches covered in fur seals, elephant seals, and hundreds of thousands of penguins, in one of the most jaw-dropping nature scenes you will ever witness. We'll have ample time to explore the fascinating history of the area, dating back to the grandiose times of the 'Heroic Age of Antarctic Exploration' of the late 1800s and early 1900s, before heading to the Antarctic Peninsula, to be greeted by glorious icebergs and glaciers, an array of penguin species, and likely whale encounters. The final act of this magnificent drama awaits, as we attempt to reach 66°33'S and cross the Antarctic Circle, before heading home, knowing we've truly done it all.

HIGHLIGHTS

- Penguin rookeries with hundreds of thousands of birds on South Georgia
- Zodiac cruising amongst colossal icebergs
- Potential encounters with Orca, Humpback and Minke whales
- Exploring the port of Stanley
- A visit to Grytviken, a former whaling station, and the gravesite of Sir Ernest Shackleton
